

קורס וסטיבולרי מלא עם ד"ר מייקל שוברט

12.7, 11.7, 10.7, 9.7, 6.7.17 בשעות 8-17 בבי"ס לפיזיותרפיה, אסף הרופא.

Dr Schubert completed his PhD at the University of Miami followed by a post-doctoral fellowship at Johns Hopkins University. His clinical focus is treating gaze and gait instability in people with loss of vestibular sensation. His current research investigates differences in motor learning in the vestibulo-ocular reflex using different types of error signals. In addition, he is investigating whether the synergistic relationship between the vestibular and saccadic oculomotor systems can be entrained as a strategy for gaze stability.

הקורס מיועד לפיזיותרפיסטים שלא עברו הכשרה ואינם עוסקים בטיפול הוסטיבולרי, נכון להיום.

עלות הקורס לחבר עמותה- 1100 ₪. עלות למי שאינו חבר בעמותה- 1800 ₪.

תכנית הקורס

Day 1 Thursday – 6/7/17

- 9:00 Introduction & Course Organization (Mosh Or Ipts?)
- 9:15 Lecture: Anatomy And Physiology
- 10:15 Lecture: Oculomotor Examination
- 11:15 Break
- 11:30 Lab: Oculomotor Examination (Hhit, Sn, Gen, Hsn, Pursuit, Saccade, Vorc)
- 12:30 Lunch
- 1:30 Lecture: Pathophysiology Peripheral Vestibular Hypofunction (Uvh, Bvh)
- 2:45 Lab: Repeat Oculomotor Exam

- 3:00 Lecture: Gait/Balance Exam
- 3:30 Break (Snacks Provided)
- 3:45 Lab with some Lecture as needed: Gait/Balance Exam (Romb, Sh Romb, SIs, Dgi, Gait Speed, Ctsib, Dual Task Tug)
- 4:45 Questions
- 5:00 Adjourn

Day 2 Sunday – 9/7/17

- 9:00 Lecture: Rationale and Treatment For UVH, BVH (Dva, Gaze Stability, Gait/Balance)
- 9:30 Lab: (DVA, Gaze Stability)
- 10:15 Break
- 10:45 Lecture: Pathophysiology/Exam/Treatment Of BPPV (pSCC and hSCC)
- 11:45 Lab: BPPV Exam and Treatment (Dix Hallpike, Roll Test: Epley, Semont, BBQ Roll)
- 12:30 Lunch
- 1:30 Lecture: Central Vs Peripheral Dx And Central Treatment
- 2:45 Break
- 3:00 Lecture: Video Case Presentation
- 4:00 Questions
- 4:30 Adjourn

Day 3 Monday – 10/7/17

- 8:45 Introduction
- 9:00 Lecture: Eye Movement Analysis
- 10:15 Lecture: Vestibular Function Testing
- 11:30 Break
- 11:45 Lab: Oculomotor Exam (All 6 SCC HIT, SN, GEN, Pursuit, Etc....)
- 12:45 Lunch

- 1:45 Questions
- 2:00 Lecture: Best evidence for treating BPPV (aSCC and pSCC)
- 3:30 Break
- 3:45 Lab: BPPV treatment for the Vertical SCC's
- 5:00 Questions & Discussion

Adjourn

Day 4 Tuesday – 11/7/17

- 8:45 Lecture: Pathophysiology including Vestibular End Organ Dysfunction
- 9:45 Lecture: Rationale and Treatment For UVH, BVH (DVA, Gaze Stability, Gait/Balance)
- 10:45 BREAK
- 11:00 Lab: (DVA, Gaze Stability)
- 12:00 LUNCH
- 1:00 Lecture: Video Cases
- 1:45 Lecture: Central Vestibular Dysfunction and Oculomotor Alignment
- 3:00 Lab: Oculomotor Alignment
- 3:45 Break
- 4:00 Lecture: Development of the Vestibular System
- 4:45 Questions & Discussion

Adjourn

Day 5 Wednesday – 12/7/17

- 9:00 Lecture: Best Evidence for treating hSCC BPPV (Horizontal SCC)
- 10:00 Lab: BPPV Treatment for the Horizontal SCC
- 11:15 Break
- 11:30 Lecture: Migraine
- 12:30 Lunch

IPTS

ISRAELI
PHYSIOTHERAPY
SOCIETY

העמותה לקידום
הפיזיותרפיה
בישראל

1:45 Lecture: Anxiety and 3PD

3:00 Break

3:30 Lab: Vestibular function test cases

4:15 Questions and Discussion

Adjourn

נשמח לראותכם 😊
